

No. 1 Radio School, Royal Air Force, Locking.AIRCRAFT APPRENTICE TRAINING

Progress report for the period from

AUGUST, 1958

to

JANUARY, 1959

Number 682362 Entry and Class 85AA		Rank L.A.A.	Name BOON, J.C. Squadron "A"	Wing 1
Educational and Technical Subjects	Mathematics and Mechanics	48% Below standard.		
	Electrical and Radio Principles	67% Good, he is working very well indeed.		
	Technical Drawing			
	English and General Studies	75% Very good. He has a sound command of the written and spoken word.		
	Workshops			
	Radio Equipment	52% Hard work and application to the task in hand has resulted in a marked improvement.		
General Service Subjects	Discipline	Very good		
	Drill	Smart, could do better. Represented the squadron.		
	Physical Training	Good, has worked quite well and lacks only the spark of enthusiasm to make a very good assessment.		
	Organised Games	Regularly participates in Cross Country Running.		

Remarks by Officer Commanding Apprentice Wing

He has shown signs of increasing maturity over the past year and to service life. This has been recognised by his recent promotion to N.C.O. rank and I look to him to maintain his efforts and to justify our assessment of him.

*J. Macdonald
Squadron
for Wing Commander*
